USHIO's Ubiquity™ 2 LED T8 lamps and the compatible ballasts shown on the chart, have been tested internally by the lamp manufacturer only and not the ballast manufacturer.

USHIO is continually testing our LED lamps on various popular ballasts. We will continue to update this list as additional models are tested.

If the ballast does not appear on this list, it does not necessarily mean the model is not compatible with the Ubiquity 2 LED T8 lamps. It may just be that the model has not been tested yet. Please contact USHIO at 800-838-7446 about ballasts that are not shown on this list.
