## **Ushio America Introduces UV and UVV Spot Cure LED Light Sources for Spot Curing or Coating Applications**

Cypress, California (September 2018) — Ushio America, Inc. introduces two new UV (365nm) and UVV (405nm) Spot Cure LED light sources to our expanding Midori product line. The ULB-50sc series LED light sources are premier fiber-optic light delivered illuminators intended for spot curing of adhesives or coating applications where benchtop space is a premium.

This feature-rich solid-state light source is extremely compact, energy efficient and easy to use that is compatible with, and surpasses most existing lamp-based system processes for cost-effective photo-curing solutions. The versatile programming features and inherent narrow spectral bandwidth are combined with true-output irradiance is one of many unique features of our light source design for demanding UV spot curing applications.

These UV LED light sources exhibits an optimized high output LED solution with an integrated microprocessor LCD user control panel with pre-aligned coupling optics providing best in class light delivery that is compatible with industry standard liquid light guides.
