FOR IMMEDIATE RELEASE

Ushio America Introduces the New Ubiquity™ 2 LED T8 Direct Wire

Cypress, California (May 2017) — Ushio America introduces a new generation of LED T8 Direct Wire lamps to its Ubiquity™ series. An ideal retrofit solution, the Ubiquity™ 2 LED T8 Direct Wire lamps can be wired to one end or to both ends. This significantly reduces your labor and related expenses, and eliminates the need for external ballasts and LED drivers.

At 12.5 watts, these DLC listed lamps offer an energy-saving upgrade for F32T8 fluorescent lamps. Ubiquity 2 LED T8 Direct Wire lamps are available in 4000K and 5000K and are made with a shatterproof glass tube. Glass provides very good thermal conductivity and transparency. The tube is frosted to prevent glare and allows the 240 degree beam angle (325 degree visible light area) to create a quality lighted environment. Tested to NSF standards, these lamps are ETL Sanitation Listed and suitable for use in areas where food is prepared.

USHIO is proud to stand behind these 50,000 hour rated life LED lamps with a 5-year limited warranty.

For more information on the Ubiquity 2 LED T8 Direct Wire lamps or any of the other lighting-edge technologies from Ushio America, Inc., visit www.USHIO.com or call 800.838.7446.
