FOR IMMEDIATE RELEASE

Ushio America Introduces Second Generation Zylight F8-B² 365nm Black Light

Cypress, California — Ushio America introduces the second generation Zylight F8-B² 365nm Black Light for Live Event, Theatrical, Special Effects, and Cinema Production markets. The new F8-B² fixture will be showcased at the 2018 Live Design International (LDI) show booth #963.

If you are looking for dramatic, eye-popping blacklight effects, your fixture needs to emit true 365nm ultraviolet light. Most LED blacklights emit 385nm to 400nm, producing an inefficient output requiring added filters and lower output. The Zylight F8-B is the only fixture that combines our proprietary Tru365™ LED module with the flexibility and control of a focusable glass Fresnel lens. Our second generation chip is three times more powerful than its predecessor, delivering more punch at longer distances. Our active cooling utilizes an ultra-low noise fan and offers dual-mode settings for silent when needed or boost mode for maximum punch.

For more information about the Zylight F8-B² 365nm Black Light, visit www.zylight.com or call 800.838.7446.

About Ushio America, Inc.

Ushio America, Inc. is a vertically integrated solutions company for lighting systems and components utilizing xenon short arc, lasers, ultra high-pressure UV, excimer, metal halide, LEDs (specialty sensing and architectural lighting), halogen, fluorescent, and miniature incandescent lamps serving semiconductor, printed circuit, video projection, cinema, medical, life sciences, UV curing, germicidal, horticulture, landscaping, graphic arts, flash light, scientific, medical, infra-red heating, lamp and laser drivers, systems and services, and numerous other applications. Established in 1967 as a subsidiary of Ushio Inc., in Tokyo, Japan, Ushio America offers a full spectrum of over 2,500 products and services to its customers.
