

Whitestar™ Halogen MR16

High Color Temperature MR16

The Whitestar™ high color temperature series of lamps were designed to provide a balanced, full spectrum MR16 for display and task lighting. These high color temperature lamps project a high luminous intensity with low ultraviolet and infrared emissions to protect artwork and valuable merchandise.

The Whitestar MR16 lamps have a correlated color temperature range of 4200K through 6500K. Whitestar lamps can be specified to meet your specialty display applications.

Available in 35W in Flood beam spread, 50W in Spot, Narrow Flood and Flood beam spreads.

FEATURES & BENEFITS

- 4200K, 4700K, 5300K & 6500K - Daylight Spectrum
- Consistent Color - Titanium Oxide Reflector Coating
- Integrated UV Protection
- Cool Beam Effect
- Integrated Cover Glass
- Precisely Focused Light Cone
- Homogeneous Color with 4200K Metal Halide & Fluorescents

APPLICATIONS

- Retail
- Jewelry
- Textile Displays
- Color Matching
- Waterscape
- Silver and Platinum
- Museums
- Eyewear
- Crystal and Glassware
- Task Lighting
- Machine Vision
- Health Care

The Whitestar™ series of lamps are manufactured under ISO 9001 guidelines ensuring quality and security for the purchaser.

SPECIFICATIONS

Chromaticity Coordinates:

4200K: x= 0.372 y= 0.371
 4700K: x= 0.356 y= 0.365
 5300K: x= 0.337 y= 0.345
 6500K: x= 0.315 y= 0.325

WHITESTAR

The right light can make all of the difference between browsing and buying

Whitestar MR16 lamps from USHIO utilize Titanium Oxide hard coatings on the reflector to maintain consistent color from lamp to lamp and throughout the life of the lamp. Harmful UV light is reduced through a special doping process of the quartz envelope. A proprietary dichroic coating of the front glass reduces the yellow light thereby enhancing the blue and white light spectrum in 4200K, 4700K, 5300K, and 6500K lamps.

The daylight spectrum of Whitestar lamps brings out the brilliance, fire and scintillation of diamonds. White metals such as Platinum and Silver display their luminescence under the light of Whitestar lamps. Sapphire color saturation will be pure and vivid and tones will be balanced.
