Zylink Bridge & App

Intelligent LED Lighting

Wireless Control Made Smarter

Take your wireless lighting control to the next level. The ZyLink Bridge wireless fob allows the ZyLink App for iOS devices* to communicate with the integrated ZyLink wireless control found in most Zylight fixtures.

Make precise lighting adjustments for multiple Zylights from your iPhone and save your favorite settings. Forget routers or network configurations. Just turn on your lights, select a ZyLink wireless channel, and take control.

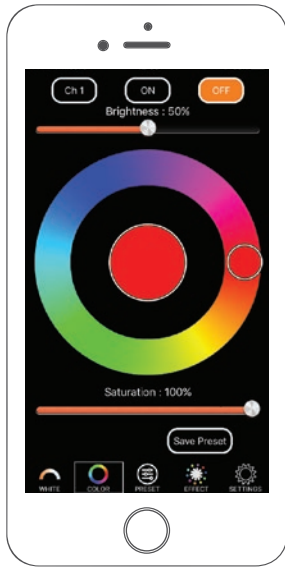

FEATURES & BENEFITS

- ZyLink Bridge Fob Connects Zylights and iOS Device Automatically
- No Router or Network Configuration
- Control Single or Multiple Zylights
- Intuitive Layout for Easy Control
- Adjustable Effects Included – Crossfade, Strobe, Police, and Flame
- Save Your Favorite Settings

Integrated Wireless Control
